

THANK YOU VERY MUCH for coming to our booth at Medical Fair Asia 2018 in Singapore !

Medical Fair Asia 2018 in Singapore came to an end

Medical Fair Asia 2018 was held from Aug.29 to 31 at Sands Expo & Convention center in the city of Singapore and ended in a big success supported by hundreds of highly-motivated visitors from around the Asian countries.

We thank all of you for coming to our booth.

Among the visitors are medical practitioners, distributors, researchers, educators, consultants, technical advisors, students and entrepreneurs. Introducing our products, we shared a lot of invaluable practical information with visitors and we were able to talk about how to improve the quality of infection control and sterilization process in health care facilities.

The only best thing we can do to assure sterility

Assuring sterility is a very tough topic and even the allies of scientists and engineers have never come up with the only best way to 100% assure the safety. The best possible way therefore is to combine the appropriate indicators with right knowledge and skill in CSSD practice. NiGK's sterilization indicators are all designed and developed in ISO compliant factory and laboratory in Japan and accurate enough to comply with rigorous ISO standards. The only best thing we can do is to produce the best items for the professionals that are continuously struggling to make the CSSD and healthcare quality better.

Bowie & Dick, indicatory cards (type4 and 6) and fixing sheet

Our product lineup includes pre-assembled Bowie & Dick test pack (BDPACK) and Type 4 and 6 indicator card for steam and instrument fixing sheet. You will be able to get further details in our official website where you can browse our product portfolio and download the relevant catalog, brochure and technical documents. Please click the right picture to visit our website for more information.

Our philosophy to improve the quality of CSSD service

NiGK is the leading manufacture of chemical products with the history of 80 years since the establishment of the former company. We experienced the era of significant changes in economy and way of life and uncompromising demands from the customers in the past decades. Through the experience, we have continued to develop our technology to produce the best products for the customer needs. We will never stop developing to serve the society to improve CSSD practice and quality of life of all the patients.
